Stud owner agrees to:

1. Take good care of bitch while in our care.
2. Sign litter registrations once litter is born payment is received.
3. Provide a repeat stud service to the same dog if only one or no live puppies at birth result from the first breeding. There will only be one repeat breeding. If this stud is no longer available for breeding, AI (if available) or a different stud can be agreed upon.

Bitch owner agrees to:

1. Pay stud fees before any breeding takes place.
2. Pay an additional \$100 per trip to the airport needed.
3. Pay for any veterinary services needed while the bitch is in our care. This may include health certificates, progesterone testing, brucellosis testing, vaginal swabs, AI, or any other vet care needed. The owner will be informed of all charges needed if possible before they are performed.
4. Send bitch in season and healthy enough to be bred.
5. Have a puppy contract that requires all puppies are returned to breeder if owner chooses not to keep puppy. No puppies produced by this mating should ever end up in foster care or a shelter.
6. Contract must require all puppies have appropriate health testing (hips, elbows, eyes) before any breeding takes place.
